

## Loops and Conditional Statements:

The slide features a sidebar menu on the left with four items: 'while loop', 'for loop', 'Nested Loops', and 'Conditional Statements'. The main content area on the right displays a list of 15 horizontal bars of varying lengths and colors (white, yellow, red, and grey), each preceded by a small colored dot.

## Implementing Loops: while and for

The slide features a sidebar menu on the left with five items: 'while loop', 'for loop', 'Control Statement: continue', 'Control Statement: break', and 'Control Statement: pass'. The main content area on the right displays a list of 15 horizontal bars of varying lengths and colors (white, yellow, red, and grey), each preceded by a small colored dot.

## Nesting Loops:

The slide features a sidebar menu on the left with two items: 'Syntax' and 'Flow'. The main content area on the right displays a list of 15 horizontal bars of varying lengths and colors (white, yellow, red, and grey), each preceded by a small colored dot.

## Writing Functions and handling function parameters:
